

CampusNova University ? Academic & Leave Policy Manual (2026)

1. Institutional Overview & Scope

This document establishes the official academic and attendance regulations for all undergraduate and postgraduate students enrolled at CampusNova University for the 2026-2027 academic year.

2. Minimum Attendance Threshold (75% Rule)

All students are required to maintain a minimum aggregate attendance of 75% in each enrolled subject. Students falling between 65% and 74.9% due to medical conditions or approved institutional duties may apply for condonation. Students with attendance strictly below 65% will not be permitted to appear in the end-semester examinations under any circumstances.

3. Medical Leave & Absence Protocol

A student who remains absent on medical grounds must submit a formal Medical Leave Application along with a signed doctor prescription or hospital admission certificate within 48 hours of returning to campus.

- Leaves of 1 to 3 days may be processed via departmental advisor review.
- Leaves exceeding 3 consecutive days strictly require Administrator approval and verified medical certification.
- Upon approval, the affected calendar days are marked as Excused in the central ERP register.

4. Excused vs. Unexcused Attendance

Excused attendance preserves exam eligibility and does not negatively impact the minimum attendance calculation. Unexcused absences deduct from the student aggregate percentage and may trigger automatic parent SMS notifications when aggregate falls below 80%.

5. Document Verification & Anti-Fraud Policy

All uploaded medical certificates and leave slips undergo multi-factor OCR extraction, student enrollment verification, and date sequence validation. Submission of forged or backdated medical records results in immediate disciplinary review.
